

TECHNICAL FEATURES

EML-12

- Leader mast for piling applications designed for 12 m effective pile length.
- Excavator-mounted; works on a standard excavator with normal auxiliary and bucket hydraulics. All mast-related hydraulics and winches are integrated to the leader mast itself.
- Bi-directional rope system which enables stepless control of both the speed and the force of the MOVAX Piling equipment in both directions of movement.
- Equipped with a fully integrated service winch for handling of piles and equipment.
- The mast can also be folded and thus easily transported between sites.

TECHNICAL DATA

Model		EML-12
Weight	kg	6800
Height	mm	15800
Depth (with excavator bracket)	mm	1500
Width (with hose hanger)	mm	1890
Excavator class	t	33-40
Travel, max.	m	12,3
Side tilt, right/left	°	± 8.0
Main winch		
Capacity, lifting	t	12
Capacity, crowd	t	6
Speed	m/min	0-40
Auxiliary/service winch		
Capacity	t	3
Speed	m/min	0-40

DH-30

- Hydraulic, impact-type piling hammer
- Pile caps available for sheet piles/H-beams, tubular steel piles and precast concrete piles
(note! pile cap not included; to be purchased separately)

TECHNICAL DATA

Model		DH-30
Total weight (excl. adapter)	kg	5550
Ram weight	kg	3000
Blows per minute	1/min	0-100
Impact energy	kNm	0-32
Drop height	m	0-1,2
Pressure relief set, max.	bar	350
Operating pressure	bar	250
Oil flow rate	l/min	120
Total height	mm	5200
Frame width	mm	650

mControl+ PRO

- MOVAX mControl+ PRO control system is an advanced control system for easier, precise and more productive and efficient operation.

(Note! Installation, start-up & commissioning and training not included. To be ordered separately.)
